DETAILED ACTION

1. This is in reply to an amendment after a non-final rejection filed **on March 06, 2008**. Claims 10-18 are **canceled. Thus claims 1-9** are pending/examined.
2. The terminal disclaimer filed on March 06, 2008 overcomes the double patent rejection/s set forth in the previous office action. The terminal disclaimer has been recorded.
3. **Claims 10-18** were rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. However since these claims are canceled, the rejection is withdrawn.

Priority

4. This application claims priority from provisional application 60/481,313 filed on August 29, 2003. Therefore, the effective filing data for the subject matter defined in the pending claims of this application is 08/29/2003.

Allowable Subject Matter

5. **Claims 1-9** are allowed.
6. The following is an examiner's statement of reasons for allowance:
7. Referring to **the independent claim 1**, the art on the record, namely **White in view of Cass** discloses each and every limitation of the claims before the RCE was submitted on 12/27/2007.

However when the RCE was filed on 12/27/2007, Independent claim 1

Art Unit: 2132

was amended.

As applicant's representative persuasively argued on 12/27/2007, Claims 1 is amended to recite steps of creating an anti-virus agent (or "curing" agent). The steps include parsing the virus into three modules, analyzing one of the modules to determine the method of infection, modifying the module to infect client devices already infected by the virus, incorporating the anti-virus into another module that acts to prevent further infection by the virus, and forming an anti-computer virus agent by combining the three modules.

These limitations are not explicitly disclosed, shown, or suggested, by the references on the record.

None of the prior art of record taken singularly or in combination teaches or suggests a method of creating anti-computer virus agent comprising **the above added functional limitation to independent claim 1** with the combination of other limitation recited in respective independent claim 1.

For the reasons provided above, the independent claim **1**, is found to be novel and is allowed.

8. **The dependent claims 2-9 which are dependent on the independent claim 1**, being further limiting to the independent claims, definite and enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays,

Art Unit: 2132

should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
